PROFESSIONAL EXPERIENCE

ARK International School — IT Teacher & Software Maintenance

May 2025 – Apr 2026

- Delivered Computer & IT education to Grades 6–10 while supporting the school's digital ecosystem, including ERP systems, website management, and computer laboratory infrastructure.
- Handled hardware/software maintenance, technical troubleshooting, and digital resource management to ensure uninterrupted academic and administrative operations.

Mindstein Technology — Web Developer

Jan 2025 – Apr 2025

- Developed and maintained websites and web applications for businesses and educational institutions using modern web development technologies and full-stack development practices.
- Collaborated with cross-functional teams to implement responsive user interfaces, integrate backend functionalities, and deliver client-focused software solutions.

PROJECTS

Guest House Reservation System — Full Stack Web Development

Ongoing

The Guest House Booking System at BIT Mesra is designed to streamline guest accommodation, offering easy room selection, booking, and feedback while enabling efficient administrative management.

- **Objective:** Create a user-friendly web application for booking rooms, managing check-ins/check-outs, and handling feedback and maintenance requests.
- **Approach:** Develop modules for guest house selection, room booking, check-in/out status, feedback, and an administrative dashboard.
- **Result:** The system will enhance guest satisfaction and operational efficiency.
- **Status:** This ongoing project is expected to be completed by July and will significantly improve the guest experience.

RESEARCH & PUBLICATION

- **Intelligent ERP System:** A Survey on Intelligent and Modern Approaches to ERP Software
- **Role of Information Technology:** Role of IT in School Administration, Teaching-Learning, and Early Education
